PROFILE

Product Owner & Tech Project Manager with 3+ years at L'Oréal. Driving a suite of 10+ global analytics products (Supply Chain) — 200+ active users, NPS 50+ — spanning operational efficiency, cost reduction and sustainability. Expertise: cloud (GCP), AI/ML, data-driven UX/UI, and global multi-stakeholder coordination.

WORK EXPERIENCE

L'Oréal | Product Owner Analytics – Global Supply Chain
Jan. 2024 – Present

- Suite of **10+ analytics products** for global Supply Chain (Fulfillment) — **200+ users**, **NPS 50+**; roadmap definition & product prioritisation in agile environment.
- Multi-level coordination: **5+ business owners**, **2 product leads**, **10+ developers** + top management & C-level executives for steering committees, budget & strategic decisions.
- Discovery & **UX/UI**: cross-zone/function user interviews; action-oriented & user-centric dashboards; shared design system → reduced development costs & time.
- AI: **AI/ML POCs** (demand forecasting, optimal stock allocation, …), **GenBI / Talk with your Data** initiative, mixing SSBI & companions; Cloud: GCP (BigQuery, Medallion Architecture), complex SQL, data modelling.
- Change management & adoption: NPS & adoption monitoring dashboard, training kits, webinars; internal & external tech partner coordination.
- Role promotion: group-level global communication to increase attractivity of Supply Chain analytics roles.

L'Oréal | Supply Chain Project Engineer – WMS Key User
Sept. 2022 – Dec. 2023

- **Business**: WMS configuration & functional tests addressing operational & strategic blind spots — **100+** test cases defined & executed.
- **Data & IT**: **20+** BI reports answering key operational questions; European developer community leadership; SAP → Manhattan data migration.
- **Change Management**: full documentation, **~50h** training for operators & team leaders, deployment support & continuous optimisation.

L'Oréal | Copacking Planner
Jan. 2022 – Jul. 2022

- Senior responsibilities (end of internship): planning, procurement & logistics for Garnier's promo catalogue — **99% service rate**.
- BI & **stakeholder management**: improved monitoring reports; **–20%** stock gap reduction with co-packer.
